

ISAP 2011, June 19th - 24th, 2011 – Halifax, Canada

Algal enthusiasts take note: The 4th Congress of the International Society for Applied Phycology will be held in Halifax, Canada from June 19th - 24th, 2011.

This meeting will be hosted by Canada's National Research Council - Institute for Marine Biosciences at the Halifax Marriott Harbourfront Hotel. Located in the heart of the city, this venue provides an opportunity to experience our vibrant and historic waterfront. Join your colleagues to discuss relevant issues regarding the cultivation, application, and commercialization of algae.

The congress website with registration and program information will be available shortly. A call for abstracts will be issued in the autumn.

A warm welcome awaits you in Halifax.

Stephen O'Leary and Alan Critchley
Co-Chairs of the Local Organizing Committee for ISAP 2011
